1. Page 8, paragraph 29

Replace the existing text with the following:

29. As part of the overall reform process, there is a need for a substantial increase in resources for operational activities for development on a predictable, continuous and assured basis, commensurate with the increasing needs of developing countries, as stated in General Assembly resolution 47/199. Any new funding system should include mechanisms for all participating countries to demonstrate their responsibility and commitment to the programmes and funds. Such mechanisms should distinguish between the financing arrangements for contributions by developed countries and others in a position to do so, as against the capacity for voluntary contributions from developing countries.

2. Page 8, paragraph 31

Replace the existing text with the following:

31. The process would include consultations to be held in New York in January 1994 for a period of no more than five days and negotiations on prospective new modalities for financing in a resumed session of the General Assembly in 1994.
